Jesse A. Fenty

Art Unit

2815

Participants:

Jesse A. Fenty

David A. Johnson

Date of interview:

31 March 2005

Type

Telephonic

Claims discussed

None by number.

Prior art discussed

Deshpande (US 2004/0242010 A1).

Principal proposed amendments discussed

None

Best Available Copy

Identification of principal arguments presented to the examiner

Inventor mentioned cited references were incomplete as to the final structure of the device. Inventor also mentioned the assumed applicability to III-V semiconductor devices is also highly questionable. Examiner instructed applicant to clarify all points in the written response to the office action.

Other matters discussed

Examiner directed applicant to specifications guiding the format of the response and related material.
